AMERICA IS IN DESPERATE NEED OF HEALTH CARE REFORM. We can't wait any longer for a system that:

- ➔ Provides **every** American with guaranteed, affordable, quality care
- ➔ That provides **real consumer choice**
- ➔ That **stops** discrimination of all kinds, including against persons with so-called "pre-existing conditions"
- ➔ That puts insurance and drug companies to work **for us**, rather than the other way around

Unfortunately, powerful vested interests are trying to block change. **Now is the time for North Carolinians to stand up**, to reclaim this critical issue as a moral imperative, and help President Obama and Congress push health care reform across the finish line! JOIN US on the 29th!

ON SATURDAY, AUGUST 29TH, North Carolinians will **also rally
across the state in the following cities: CHARLOTTE,
ASHEVILLE, GREENSBORO AND GREENVILLE.**
